What's New In Motorola W375 Manager?

It is a software for Windows, which can manage the Motorola W375 address book and SMS that we sent, receive and created. It will be very useful for companies that can send hundreds of SMS to customers, or for people who always travels and find it difficult to manage the message numbers or have a lot of them! The program will allow you to: ✔ See all the numbers and content of the phone message book. ✔ Send message and SMS to any number or create a new SMS when you're out! ✔ Manage the order of the received messages, this also generates a list of the recipient with the date, time and message. ✔ Manage all the SMS that you've sent to yourself to see the date, the time and the number of sent SMS. ✔ Create and send SMS. It is very easy to use and it's free! You don't need to be a Motorola MFI dealer or have a special

serial number. ✔ Control the SMS and the program will receive the text message of the receiver. ✔ Manage other buttons like, vibration, etc. ✔ Backup the phone SMS. ✔ Manage the program preferences. ✔ Have a technical support. Have a look at the program before buying it, all sales are done through comments, so be very well-prepared to write your opinion! Do you use a multi-functional phone? You can have a look at our SMS trimmer application to trim all your SMS in one. Java eXtreme NC does not allow all characters in phone number. In particular, Java eXtreme does not allow the following characters: "?", "*", "#", ".", " " or "+" On user's request, we tried to add these characters to be allowed in phone number fields. It is a request from user. In case of interest, you can manually allow characters by clicking on "More Settings...", then enabling "Allowed characters in phone number" field. Do you have some issues or some suggestion to improve this software? We would be happy to hear your comment or interest! Have a look at the program Have a look at our applications! If you want to contact us, you can e-mail us or send us a PM. We've updated the manual with the information about the latest version of the program. We've added the latest releases of
